

GHG ALLOWANCE/FEE REVENUE ALLOCATION WORKSHOP

April 16, 2009 – California Museum in Sacramento

OBJECTIVES OF THE WORKSHOP

- ❑ Gather key stakeholders and decision-makers to hear from leading experts and review their research related to the different options for handling AB 32’s GHG allowance/GHG fee revenue allocations, including experience in other jurisdictions. Mix policy level, real world, and academic perspectives.
- ❑ Review interests and highlight where we might have consensus and where there are different perspectives.
- ❑ Recommend issues and agenda topics that would help frame upcoming California Air Resources Board meetings and potential legislative meetings.
- ❑ Identify key AB 32 objectives such as equity, efficiency, and technology innovation and identify policy options for achieving these goals.
- ❑ Identify additional research needs/other recommendations on moving forward on this topic to support successful implementation of AB 32 objectives in California.

| 5:00pm Meeting Adjourns | | |

Facilitator: Next 10 has engaged David Sibbet, President of The Grove Consultants International, to graphically facilitate this event. He is experienced in cross sector collaborations of this kind, having got his start in consulting with the Coro organization, helping train Freshman Assemblyman for their jobs among other things. He has worked on California Delta Issues, Marin transportation issues, California energy and housing policies, and most recently has been the principle facilitator of the large RE-AMP process that is involving 90 plus NGOs and 15 foundations in the upper Midwest in an effort to clean up their energy sector and reduce global warming pollutants.

The Grove conducts strategic visioning and organizational transformation processes for all kinds of organizations in addition to cross sector work. He is known as a pioneer in the application of large scale visualization to processes that need to deal with complex problems.

The Grove Consultants International is located in the Thoreau Center for Sustainability in the San Francisco Presidio. For more information check www.grove.com or David's blog at www.davidsibbet.com.
